AN ACT to provide for the grant and protection of plant breeder rights
and for related matters.

DATE OF ASSENT: 29th December, 2020.

PASSED by Parliament and assented to by the President

Application and Conditions of Variety

Scope of application

1. The provisions of this Act apply to all plant genera and plant species.

Meaning of variety

2. Variety means a plant grouping within a single botanical taxon of the lowest known rank which grouping, irrespective of whether the conditions for the grant of a plant breeder right are fully met, can be

- (a) defined by the expression of the characteristics resulting from a given genotype or combination of genotypes;
- (b) distinguished from any other plant grouping by the expression of at least one of the characteristics that result from a given genotype or combination of genotypes; and
- (c) considered as a unit with regard to the suitability of the variety for being propagated unchanged.

Conditions of variety for the protection of plant breeder right

3. A variety shall not be deemed suitable for the purpose of the protection of a plant breeder right unless the variety is

- (a) new;
- (b) distinct;
- (c) uniform; and
- (d) stable.

Novelty

4. A variety is new if at the date of filing the relevant application for registration as a variety or where applicable on the priority date, the propagating or harvested material of the variety has not been sold or otherwise disposed of to any person by, or with the consent of, the breeder for the purpose of exploitation of the variety

- (a) in Ghana, earlier than one year before the date of filing the application, or
- (b) in a foreign country, earlier than
 - (i) four years, or
 - (ii) six years in the case of trees or vines,

before the date on which protection is applied for under this Act.

Distinctness

5. (1) A variety is distinct if the variety is clearly distinguishable from any other variety, the existence of which is a matter of common knowledge

- (a) at the date of filing the application for registration, or
- (b) on the priority date of the application for registration.

(2) For the purpose of subsection (1), the filing of an application for a plant breeder right, or for the entry of another variety into a catalogue of varieties admitted to trade in any country shall be deemed to render that other variety a matter of common knowledge from the date of the application, if the application leads to the grant of the plant breeder right or the entry in the catalogue.

Uniformity

6. A variety is uniform if, subject to the variation that may be expected from the particular features of the propagation of the variety, that variety is sufficiently uniform in the relevant characteristics of the variety.

Stability

7. A variety is stable if the relevant characteristics remain unchanged after repeated propagation or, in the case of a particular cycle or propagation, at the end of that cycle.

*Application for Plant Breeder Right***Eligibility for a plant breeder right**

8. (1) A breeder is eligible for a plant breeder right if that breeder duly makes an application for the plant breeder right in accordance with this Act.

(2) The eligibility of a breeder to apply for a plant breeder right shall not be affected by the fact that, the same variety

- (a) has not been applied for, or
- (b) has been refused in a foreign country.

(3) Where two or more persons have jointly bred or discovered and developed a variety, the breeders are eligible to jointly apply for a plant breeder right with respect to the variety.
